Recent Council Actions

The City Council held two public hearings regarding Hamline Avenue and Buffalo Lane road reconstruction projects. Following the public hearing on the Hamline Avenue reconstruction (between Lexington Avenue and County Road I), the City Council tabled action on the project. After reviewing the condition of the City's collector street system following this winter, the City determined that other streets were in greater need of resurfacing. The Council then adopted a motion establishing the 2011 street rehabilitation projects that will resurface segments of Tanglewood Drive and Victoria Street (Highway 96 to Tanglewood Drive).

After conducting the public hearing on the Buffalo Lane project, the Council also tabled action until the May 16 meeting. The reason for tabling the project was to allow Buffalo Lane residents with failing septic systems to obtain cost estimates for replacing these systems and to allow City staff additional time to complete grading and drainage plans for the project. The proposed project would not only reconstruct Buffalo Lane, but would also include City sewer and Water services to four properties that are currently not served by the City's utilities.
